

**MEDICATION PERMISSION
2008-09 School Year**

Before Cedar Tree will issue any medication to a student, the school must receive written permission from parents. The permission shall grant the general dispensing of acetaminophen (Tylenol) to their child for a **period of one year** to Cedar Tree. **Prior to dispensing the acetaminophen to your student, you will be called by an office staff member and asked to give verbal permission to give the acetaminophen. We will not give the acetaminophen until we talk to you or receive a dated and signed note from you.** This form will be kept on site in the medical notebook in the school office. No other medications will be dispensed unless the parents provide written authorization each time the medicine is to be given.

Please choose **ONE** option below:

_____ I do hereby give permission for the children named below to receive acetaminophen (“Tylenol”) for pain or fever. I understand that written permission is required before any other medications are dispensed from the school office or from their homeroom teachers.

Student: _____
Student: _____
Student: _____
Student: _____
Student: _____

_____ I prefer to give written permission for all medications, including acetaminophen (“Tylenol”), immediately prior to their use at Cedar Tree.
